

Accelerate NIS 2 Audit Readiness for your Clients

Still Managing Compliance On Spreadsheets ?

Compliance teams spend **80%** of time preparing for Audits. Gather evidence manually and tracking controls in spreadsheet.

RedOrange's Compliance Automation Prepares You for NIS 2 Audits - Faster & Cheaper

Map NIS 2 Controls

- Instantly map your organization's existing security controls to NIS 2 requirements.
- Identify control gaps using RedOrange frameworks alignment engine.

Cross Framework Mapping (Optional)

- Reuse existing compliance work instead of starting from scratch.
- Automatically align NIS 2 with ISO 27001, SOC 2, GDPR and other frameworks.

Collect Evidence

- Pull real-time data from your systems cloud, IAM, logs to validate control performance.
- Replace manual screenshots with continuous & verifiable evidence.

Generate Gap Analysis Report

- Instantly Visualize your Compliance gap using Compliance Readiness Dashboard & Detailed downloadable report.
- Export NIS2 audit-ready reports in one click.

NIS 2 Deadlines Are Closing In Are Your Clients Ready?
